## special invitation

For over 30 years, Danish architect Jan Gehl has been  
an advocate of turning vehicle-centric cities into pedestrian-  
and people-friendly cities. With his leadership all 18 public  
squares in Copenhagen that had been parking lots have  
been turned back to public squares, and pedestrian streets  
are thriving for walking, shopping, and people-watching.

To honor Gehl we're reserving Occidental Street—  
ordinarily used for vehicles—as the location for a  
dinner party. Come with a big appetite for food and fun and hear Gehl share his  
observations about how Seattle can become a truly great pedestrian city.

Tickets may be purchased at [www.i-sustain.com](http://www.i-sustain.com).
